| Period for Reply | | • | | | | |
| A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). | | | | | | |

Art Unit: 1755

Specification

The examiner has not checked the specification to the extent necessary to determine the presence of **all** possible minor errors (grammatical, typographical and idiomatic). Cooperation of the applicant(s) is requested in correcting any errors of which applicant(s) may become aware of in the specification, in the claims and in any future amendment(s) that applicant(s) may file.

Applicant(s) is also requested to complete the status of any copending applications referred to in the specification by their Attorney Docket Number or Application Serial Number, if any.

The status of the parent application(s) and/or any other application(s) cross-referenced to this application, if **any**, should be updated in a timely manner.

Election/Restriction

Claims 21-37 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on July 8, 2005.

Claim Rejections - 35 USC § 112/101

Claim 20 provides for the use of a composition, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Art Unit: 1755

Claim 20 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd.* v. *Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Because this claim is non-statutory, it has not been further treated on the merits. In the event that it is rewritten, it may be withdrawn from consideration as directed to a non-elected invention since applicant has already had an office action on the merits for the composition.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,993,920 to Kim.

The instantly claimed invention involves a composition comprising fine aggregate, aggregate chips and hydraulic cement.

Kim discloses a composition comprising marble aggregate, cement powder and stone powder, which is considered to anticipate the herein claimed composition.

Although the reference does not mention "honable chips", clearly coarse aggregate

Application/Control Number: 10/774,872

Art Unit: 1755

constitutes "ships" and they are certainly inherently "honable". Accordingly, the disclosure of Kim does not appear patentably distinct from the claims presented. See particularly columns 1 and 2.

Claims 1-19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 5,803,964 to Scarborough.

Scarborough discloses a composition comprising Portland cement, quartz aggregate and marble dust that is considered to anticipate the herein claimed composition. See particularly column 8.

It should be noted that the claims are so broad as to read on poured terrazzo floors or glass fiber reinforced concrete. Applicant should keep this in mind when making amendments to the claims.

Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by admitted prior art supplied by applicant.

Applicant has indicated on this record that the product "florundum" is considered to infringe his claimed composition. The submitted PTO 1449 indicates that this prior art has an effective date more than a year before the filing of this application.

Accordingly, this commercially available product constitutes a statutory bar to the patentability of the claimed invention.

Conclusion

Applicants are advised that any evidence to be provided under 37 CFR 1.131 or 1.132 and any amendments to the claims and specification should be submitted prior to

Art Unit: 1755

final rejection to be considered timely. It is anticipated that the next office action will be a final rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elizabeth D. Wood whose telephone number is 571-272-1377. The examiner can normally be reached on M-F, 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jerry Lorengo can be reached on 571-272-1233. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
